Data, Implications, and Recommendations

After reading the case study you were assigned for homework, complete the following:

A. Identify the key policy-relevant findings or data (maximum five) and list them using a succinct bullet format.

•

•

•

•

•

B. Given your key findings, what are the policy and program implications for policymakers to consider?

•

•

•

•

•
C. Building on the key findings and implications, write a maximum of three recommendations. Identify the audience and the recommendation. To the extent possible, make your recommendations SMART (specific, measurable, action-oriented, realistic, and time-bound).

1. Audience:

   Recommendation:

2. Audience:

   Recommendation:

3. Audience:

   Recommendation:
