Purpose
This activity contributes to the module learning objectives by asking participants to practice delivering a 12-minute presentation that communicates research findings to a defined policy audience.

Time Required
- 2 hrs.

Activity Description
This Working Group Session asks participants to practice delivering their policy presentation (12 minutes in length). The facilitator and other members of the group listen, watch, take notes, and then provide feedback. The PowerPoint presentation of each participant will be in different stages of completion. Ideally, they should have a complete draft ready for feedback.

Using the Policy Presentation Assessment Sheet as a guide, assign each member of the group (aside from the presenter) one or two elements of the presentation to focus and give feedback on: Introduction, Content, Implications, Recommendations, Summary, Organization, Slides and Visuals, and Physical Delivery and Style. Facilitators should remind participants to identify their audience when they present to the group. Estimate approximately 20 minutes of discussion per participant.

For each presentation, all group members should write their comments and feedback in the appropriate field(s) of the Policy Presentation Assessment Sheet.

Key Learning Concept(s)
- Making a clear link between research findings, implications, and recommendations.
- Selecting and structuring appropriate content for a presentation.
- Applying principles of good public speaking.
- Applying principles of PowerPoint slide design.
