COMMUNICATING RESEARCH THROUGH SOCIAL MEDIA (SM2E)

1. Facebook
Draft a Facebook post to share some recent research findings, or to disseminate your work (such as a policy brief, data visualization, or blog post). Note if there are photos or other visuals you could consider including in the post.

2. Twitter
Draft three Tweets on a connected topic. At least one Tweet should include recent data. Other Tweets should be on the same general topic or to disseminate your work (such as a policy brief, data visualization, or blog post). Note if there are photos or other visuals you could consider including. Make sure your Tweet is under 280 characters!
